Scott R. Grace Environmental Restoration Division DOE/RFFO

AGENCY RESPONSE ON DRAFT FINAL TECHNICAL MEMORANDUM NO. 5 "HUMAN HEALTH RISK ASSESSMENT 903 PAD, MOUND, AND EAST TRENCHES AREAS OPERABLE UNIT NO. 2 EXPOSURE - PJL-006-95

Action: Request Exposure Technical Memorandum No. 5 comments from EPA and CDPHE.

The above mentioned document was submitted to the Department of Energy (DOE) on December 9, 1994, with a cover letter from Sue Stiger to Jesse Roberson (94-RF-12149). This letter requested that the Colorado Department of Public Health and the Environment (CDPHE) and Environmental Protection Agency (EPA) provide comments to DOE by January 3, 1995. As of January 23, 1995, EG&G Rocky Flats, Inc. (EG&G) has not received any agency comments. Although the delay in receiving comments has not impacted the ability to meet the Draft Resource Conservation and Recovery Act (RCRA) Facility Investigation/Remedial Investigation Interagency Agreement milestone of May 30, 1995, it has forced related Exposure Scenario Technical Memorandum activities on to a critical path. EG&G asks DOE to request for regulatory agency comments to be submitted as soon as possible.

If you have any questions or require additional information, please contact Pere Laurin at extension 8702.
